

Management of Asthma & Anaphylaxis

COURSE OUTLINE

Target Audience

This program in the First Aid Management of Asthma and Anaphylaxis in the Workplace prepares individuals for the requirements to safely assist a person suffering an Asthma attack and/or Anaphylactic reaction, until the arrival of medical assistance. It includes the use of Asthma medications, spacer devices and an adrenaline auto injector such as Epipen[®].

It is ideal for all parents and caregivers and provides fundamental knowledge and skills to anyone working with individuals that suffer from asthma and/or severe allergic reactions.

These units are approved by Australian Children's Education & Care Quality Authority (ACECQA).
