Product Information

CT-6 TRACTION SPLINT

The CT-6 from Faretec is a new development in the use of Carbon Fibre in emergency traction, helping not only to make the product lightweight (weighs less than 445g) it also gives it exceptional strength.

It has a 4:1 ratio tension for easy infinite adjustment and quick cleat design for securing. The modular design allows for use with an Adult or Paediatric patient. The CT-6 Splint comes in a bag no bigger than 25cm x 10cm

The CT-6 Femoral Leg Traction Splint features

- ★ Compact
- ★ Effective Strap System
- ★ Integral Strap System (no loose components)
- ★ Field Tested
- ★ No Sticking to frozen Aluminum
- ★ Reflective weave for poor light application
- ★ One size fits all - Adult and Paediatric
- ★ Minimal patient movement
- ★ Weighs 455g
