

Start your career in Paramedicine with First Response Australia

Enrol now in the **Advanced Emergency Medical Technician Plus Program (AEMT Plus)** **Step 1 to the Diploma of Paramedical Science**

*The only program of its type
in Australia - provides a direct
pathway to the
Diploma of Paramedical Science*

This unique 16 day program culminates in successful participants being invited to RPL for the Diploma of Paramedical Science.

Our AEMT program is delivered at a significantly high clinical level and successful candidates will ONLY have one unit of competency (HLTAMB008) to complete when progressing to the Diploma.

The program's qualifications and statements of attainment (22 in total) include but are not limited to:

Certificate IV in Pre-Hospital Emergency Medical Response 10734NAT

*Certificate IV in Health Care HLT41115 (RPL) **

Pre-Hospital Trauma Life Support (EMRPHC406)

Intermediate Cardiac Life Support /ALS Workshop (EMRPHC416)

Wound Management & Closure (EMRPHC407)

ECG Recognition & Interpretation (EMRPHC411)

Control the Bleed (EMRPHC417)

Recognised by the Australasian Registry of
Emergency Medical Technicians (AREMT)

Course Fee: \$5,645 (GST free) *

*** Students must have the ability to source and complete 80/160 hours
clinically supervised work experience**

This program delivers the latest advances and innovations in resuscitation, medical & trauma emergency management. The candidate would then need to pass a knowledge challenge assessment and achieve 160 hours of 'Clinical Work Experience', which can be gained with our partners in Sydney, Brisbane, Bundaberg and /or Adelaide or at their workplace if 'Clinical Guidance' is available.

Course subject matter includes but is not limited to:

Advanced Airway Management

Laryngoscopy & Magills Forceps

Intrathoracic Pressure Regulation - ResQCPR System

Advanced Bleeding Control - Control the Bleed

Intravenous/Intraosseous Vascular Access & Fluid Therapy
