

First Response Australia

Product Information

*The latest, the fastest and the easiest to use
Tourniquet on the market*

X8T Tourniquet

Until now we thought the MAT Tourniquet was the best on the market. The ongoing advancement of medical technologies has now lead us to the X8T Tourniquet.

The X8T Tourniquet exceeds the performance and features that the MAT Tourniquet had. Look at these features:

- * **FASTEST** to apply on the market. Apply, pull, dial - all in 8 seconds
- * **EASIEST** - MED Technology - The *Maximum Efficiency Dial* provides the *most* rapid and simplified windless dial on the market and is operated with 2 fingers (other tourniquets usually require two hands)
- * **SELF LOCKING** - Infinite adjustment for tightening. Does not have to be unclipped or released to provide additional tensioning.
- * **ONE-HANDED** application - intuitive and effective.

Visit *FRA's Youtube Channel:*

X8T - The Fastest: <https://www.youtube.com/watch?v=hBGoDfly7Hs>

During trauma and under high stress, complex physical motor skills become less available and effective. Unlike current tourniquets, X8T integrates a patent-pending **MED™ (Maximum Efficiency Dial™)** Technology that requires no prior medical experience or training.
